*About Us!*

Backyard BIG finds its origins from a couple college kids in **San Luis Obispo, CA**. Our goal was to make a couple bucks with some extra house space and to have a good time while doing so.

Six months later, college students around the country are benefiting from our app, and in turn, more local bands are getting the **exposure** they deserve.

We are pumped with the positive outpour thus far, and the future Backyard BIG is bright!

Go **BIG**,
